Product Description:

Bang is not your typical sugar-filled, soul-sucking soda masquerading as an energy drink. If it s just a jolt of energy you want, have a candy bar, wear a tinfoil hat in a lightning storm, or try one of the other energy drinks on the market. But if you re looking for something to fuel your next workout or hike, if you want sustained energy, as well as peak mental and physical performance, Bang is the energy drink for you! Every 16-ounce can of Bang that s right, no wimpy 12-ounce cans here contains 300 milligrams of caffeine, which has been shown to increase endurance, as well as strength in some cases. Even better, Bang is sugar-free and has ZERO calories yet it tastes great, with 20 different flavors to choose from! Bang energy drinks also contain other ingredients designed to help you get more out of your workout, your day and your life OK, that last one may be a little much, but Bang generates that kind of enthusiasm! It s why Bang is not only America s top-growing energy drink, but

the No. 1 overall growth-beverage in the entire non-alcoholic beverage industry (through 2018)! So, why waste time with other, dubious products? Get more Bang for your buck by ordering your Bang 4-pack today!

WARNING:

Do not use this product if you are pregnant or nursing. Do not consume this product if you are taking any prescription drug and/or have any medical condition. The user of this product assumes all liability if this product is used in a manner not consistent with label guidelines. This product contains caffeine and should not be used with any other caffeine-containing products. This product is intended for use by healthy individuals only. Too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. Not recommended for use by children under 18 years of age. One can of Bang provides 300 mg of caffeine, which is more than two cups of coffee.
